[My Chemical Romance Complete Discography Torrent](#)

Someone posted on [mychemicalromance.com](#) that teh new album had been leaked! is this true?

Upon further research after answering this question the first time I found the following:

Many torrent sites are claiming that they have a leak of a new album from My Chemical Romance titled "Murderer," which I -- after consulting those who actually know their shit around the MCR world -- have been told is a hoax.

I was told that torrent sites often fake leaks and hide files in a .zip folder and use it to hurt your computer.

My advice: Stay the fuck away from those shenanigans!

The answer to your question:
No. The new MCR album HAS NOT been leaked. Just be careful and patient while soaking in the anticipation of the wait! It will be much better if you hold out until the end anyway.

From Mikael of MCR.com/WBR:
"Be careful, never download any zips or exe's or dmg's, they can be dangerous."
